January 11, 2005

To Whom It May Concern:

My name is Kathleen Joyce Dietz, AKA Kamala Dietz. I have a Master of Science in Traditional Chinese Medicine from the Academy of Chinese Culture and Health Sciences in Oakland, California, certification in both acupuncture and herbs from NCCAOM (National Certification Commission for Acupuncture and Oriental Medicine) and am a Licensed Acupuncturist in the State of California.

I have had my acupuncture license for six years and have a private practice in St. Helena, California. I have also provided pet acupuncture for Frontier Pet Clinic in Napa, California for the past two years; last year I began teaching an acupressure class at Napa Valley College, Upper Valley Campus, in St. Helena, and I have been a guest lecturer at the University of Calgary in Alberta, Canada. I have taught yoga for the past 38 years, first in Toronto, Canada as Director of Yoga Center Toronto and then for the Sanatana Dharma Foundation in St. Helena, California where I was also responsible for training their teachers. I continue to teach yoga through the St. Helena Recreation Department and through the Upper Valley Campus of Napa Valley College.

In April of 2004 I received certificates in both the Comprehensive and Advanced NMT Seminars. I have incorporated NMT as taught in the NMT seminars into my acupuncture practice both with people and with animals. The majority of clients (people and animals) who come to me come to be treated for pain of all various types. They also come for support for western medical treatment of cancer, digestive disorders, sleep disorders and for various other reasons.

NMT is in fact taught by use of the NMT seminar manuals, and being relatively new to this system of treatment I am continually referring to the NMT manuals. The NMT system consistently works as disclosed.

NMT is most useful in treating patients. Patients just about always leave my office with an increased sense of well being and decreased symptoms.

Sincerely,

Kamala Dietz, MS, NCCAOM Dipl. Ac. & Dipl. Herbs, L.Ac.
